A preschool that  
**Values Action Based Learning**

[www.fosterkids.in](http://www.fosterkids.in)

When **innocent eyes** give you the way  
to independent looks,  
When **soft giggles** slowly get replaced  
with commands!  
It is an indication for you that  
**your tiny little one's**  
is all set to take out his or her **first step**  
out of your sheltered home.

## About the FosterKids

Pre School Chain

We primarily focus on shaping the future of young buds through education & it's allied methods. **Foster Kids** has been set up with a long-term view of nurturing the child right from their early years. It also lets one lay down a concrete foundation to build up a society that's helpful in nation's progress. Not just this, **Foster Group of Schools** have been certified on professional and public level for taking up progressive steps in the development of information technology by venturing into several projects falling under category of hardware, networking, software, accounting, management education and training for Spoken English.

### Curriculum at Foster Kids.....

Curriculum is the backbone of every influential learning process. At **Foster kids**, we ensure that the curriculum is comprehensive, vivid and purely activity-based so that it results in well-balanced development of the child and laying down a strong foundation of child pedagogy. Our curriculum characterizes of Triple objective of:

- Inclusivity in Education (Education for All)
- Well-planned Academic Session (Balanced Child Pedagogy)
- Sports & Co-Curricular Activities (Age-specific Activities)

### Mission

To nurture and develop innate power and talent of every student from all backgrounds to serve our glorious country, and establish norms of early childhood education with care keeping in mind the commitment to academic excellence, moral values, character building and spiritual growth.

### Vision

**Foster Kids** envisions to optimize the hidden potential of kids across the nation and to create global citizens with deep rooted Indian values so as to contribute their share to the society when they grow up.

### Aims & Objectives:

## Comprehensive Curriculum @ Foster Kids

We are amongst very few schools which follow Multiple Intelligence Enabled Curriculum. Multiple Intelligence is all about practical & conceptual learning with the help of role-plays, activities and technology. Our curriculum helps children to ooze out their potential to the fullest, develop their academic talent, enrich their creative powers & learn to socialize. All this is done with the help of specially designed activities & specially formulated learning material. **Foster Kids** follows a student-centric approach which has the essence of activity-based learning and holistic growth. Our curriculum aims at learning by doing so that kids are able to carry themselves and others along with confidence. We also believe in inclusive education and aim at providing equal opportunity to every child. As every child has different learning abilities and frequency, we tailor our teaching methods accordingly so that every child is learning at the same pace and no one is left behind. Foster kids respects and recognizes each child's individuality and potential thereby encouraging them to discover and develop their talents and interests in different domains.

## Following Holistic Growth Approach since beginning

For Holistic Development of the child, there should be harmonious balance between the mind, body & senses. To assure four-dimensional growth of a child, we have a proprietary program called 'Seven Feathers'. It is a unique program and a USP at **Foster Kids Group of Preschools**. 'Seven feathers' is a tailor-made program based on Howard Gardener Theory of Multiple Intelligence.

## Pre-School and Kindergarten Programs @ FosterKids

### Pre – School

★ **Toddler**  
1.5 Years to 2.5 Years

★ **Nurturing Minor**  
2.5 Years to 3.5 years

### Kinder Garden

★ **Fostering Kid (LKG)**  
3.5 years to 4.5 years

★ **Fostering Younger (UKG)**  
4.5 Years to 5.5 Years

## Play Group

Going to a preschool comes with its fair share of mixed emotions, for both the parent and the child. Entering a new environment filled with unfamiliar faces, causes both anxiety and anticipation and young kids are not very used to this feeling. We are right there with you and your child, while he/she takes the first step to pre-schooling. To foster individual learning and child development at every age, it is important to imbibe active learning, hands-on discovery and exploration, intellectual programs and social initiatives into the child's mind. Our Play Group program focuses on nurturing new skills and developing integrated learning methods using language, Mathematics and scientific school of thought. Multi disciplinary learning at **Foster Kids** encourages development of individual skills and emerging interests in academics, creative expression and outdoor learning.

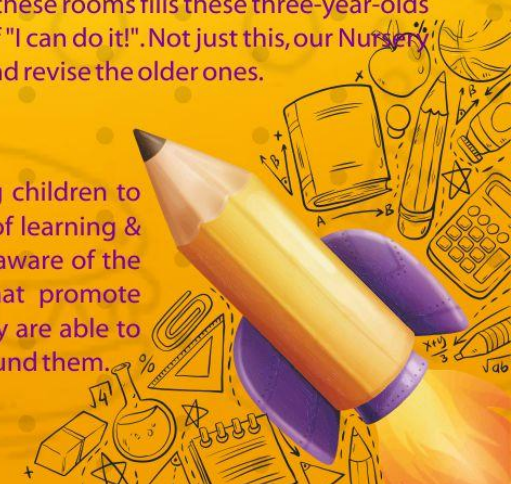

## Nursery

Our Nursery program is a unique blend of essential skills like pre-reading, pre-writing, pre-Math, Science and social skills in a logical and natural sequence, encouraging children to learn everything step by step. Making strategic use of monthly themes, weekly topics, daily activities is what we do at **Foster Kids**. These activities are carefully planned amalgamation of art, music, drama, play and social interaction put together. This program helps children develop creativity, imagination and curiosity one stage higher than their preschool years.

We have Fun Rooms for kids which again have dedicated areas called "Discovery Areas" to help your child explore and learn in a fun-filled manner. Every accomplishment in these rooms fills these three-year-olds with pride and excitement to learn more. They realize the power of "I can do it!". Not just this, our Nursery readiness program makes it easy for them to learn new concepts and revise the older ones.

## LKG

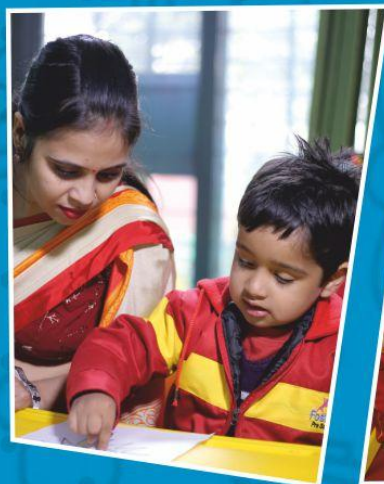

In the **Fostering Kid Program**, emphasis is laid on encouraging children to realize their inner potential without hampering their own pace of learning & growing. In this program, kids are motivated to observe and be aware of the environment around them. Stress is also laid on activities that promote language development and instill confidence in kids so that they are able to verbalize their thoughts, feelings and impressions of the world around them.

## UKG

In the **Fostering Younger Program**, emphasis is laid on building vocabulary and applying the concepts, which the children have already learnt in **Fostering Kid Program** (LKG). Children learn to read and write, using innovative learning methods and tools designed especially for this age group. Complex subjects like Math are taught using a child-centric approach, considering individual capacities. The focus of this program is on enhancing the attention span of the children with a view to accelerate their learning process and prepare them for extensive studies in the future.

## FosterKids Discovery Areas to make learning worthwhile

Playful learning and enjoying every minute; that is what we, at Foster Kids preschools aim to gift to our lovely kids. We firmly believe in stimulating the child's imagination by providing them opportunities to grow and develop while reading, writing, listening in a playful manner. Apart from this, discovering area technique remain the same as discussed earlier. Let us tell you about our various discovery areas for kids:

### School & Sensory Area

In this area, we help the child with hands-on exploration activities where they learn about basic science concepts using simple materials and experiments.

### Dramatic Play Area

Here, children explore language and social skills by playing and cooperating it with each other and imitating characters from their daily lives using their vivid imagination.

### Blocks & Manipulation Area

Toddlers develop fine motor skills and coordination by sorting, grouping and balancing blocks. These activities also develop their creative thinking and problem-solving abilities, besides developing a strong conceptual foundation through hands-on learning experiences.

### Creative Arts Area

Kids let their imagination fly free and express themselves imaginatively. This helps them build skills and indulge in confidence building using tools and materials readily available in this discovery area.

### Painting & Collage

This area has been designed to bring your child's creative talents to the forefront. It is the canvas on which your child is free to express their imagination, putting it on paper with sketch pens, color pencils and paint, and in the process develops sharp eye-hand coordination, fine motor coordination and 'writing readiness'.

## Clay Art & Modelling

It is here that our belief in the "touch, explore, learn and enjoy" approach of learning is put into practice. Kids are given clay and facilitated to bring their imagination to life using the art of modeling. Further, it also helps children become more expressive, as they generally love to speak about anything they create.

## Project Work

In line with our ideology of Learning by Doing, we give our budding talent some projects based on their competencies. This may include composing and singing songs, reading out stories, talking about field trips and live demonstrations. Such first-hand experience encourages lateral thinking and boosts confidence amongst kids.

## Reading & Writing

Listening, speaking, reading and writing together constitute the most basic and important part of a child's learning process. At Fostering Kid (LKG/KG - I) & Fostering Younger (UKG/KG - II), we ensure that your child develops a strong base in reading and writing. After all, it is the very foundation on which the tall tower of knowledge will stand for a lifetime.

## Math Corner

Math is an integral part for any curriculum. Basic Math concepts are taught in an indulging manner. Simple calculations are combined with a variety of fun experiences from which the child learns to distinguish, classify and observe similarities and differences in the world around them.

## 360 Degree Assessment System @ FosterKids

There are quarterly assessments conducted at Foster Kids on the basis of the syllabus that has been taught in that particular quarter. The assessment aims to judge the child's ability to show to what extent they have been able to grasp through the sessions conducted.

The logical parameters on which kids' pace of learning is measured on are as follows:

**Gross and Fine Motor Skills**

**Language Development**

**Mathematical Development**

**Experience and Presentation Skills**

**Music and Dance**

**Social and Emotional Development**

**Habits of Work**

**Attendance**

**Cognitive Development**

## Reflective Report Cards @ Foster Kids

The reflective report cards signaling the growth and learning patterns of kids are compiled in the months of September, December and March respectively. These report cards are shared with the parents and every child's progress is discussed with them on individual basis. The discussion revolves around what that child has achieved and where the child can improve upon. This brainstorming is a combined effort on the part of both parents and the teacher. The report card has to be duly signed by the parents after satisfactory discussion and should be returned to the teacher within two working days.

### GOOD NEWS....

### We have all Year-Round Admissions!

Admission in Foster Kids remain open throughout the year on first come first serve basis depending on the availability of seats in the respective branch. So, if you have recently shifted at a place, look for a Foster Kids branch near you.

## Rules & Regulations

### Tuition Fees

Tuition Fee is to be paid before 7th of every month or quarter, whichever is applicable.

### Transport & Safety

- Transport facility is available at **Foster Schools**
- It will be the responsibility of the parents to drop and pick up the child well on time from designated spots, if any.
- Parents who wish to discontinue the transport facility for their child should inform the school office at least one month in advance

### Transfer

Transfer of the student from one branch to another across the country is subjected to the terms & conditions.

### Withdrawal

- One month written notice is required to withdraw the child from the school
- On withdrawal, no amount would be refunded in any case

### Change of Address

In case of any change in residential address or contact numbers, parents need to inform the same in writing to school authorities immediately.

### Use of Audio / Video / Photographs

School reserves the right to use audio/video or photographs of the students for their print and promotional purpose and parents cannot submit any claim for the same.

## A Glimpse of how a happy child looks!
